Summary Measures and Graphs

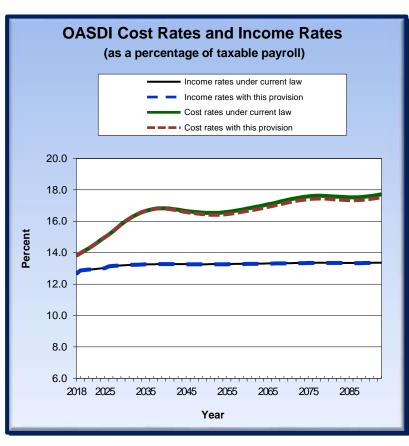

Category of Change: Level of Monthly Benefits

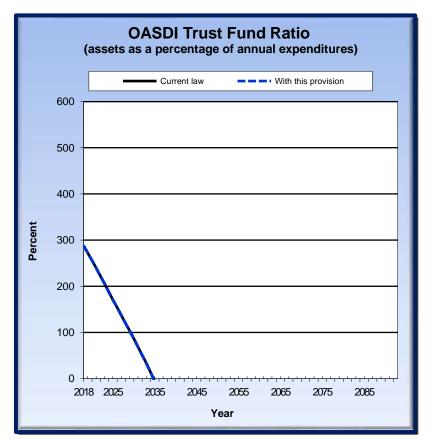

Proposed Provision: B3.13. For retired worker beneficiaries newly eligible in 2025 (excluding disabled workers), add a new bend point at the wage-indexed equivalent of the 50th percentile of the AIME distribution minus \$100 (for 2015 eligibility) and change the PIA factors to 95/32/15/5. Also move the current-law first bend point from the wage-indexed equivalent of \$895 in 2018 to \$1,138 in 2018. Phase this provision in over 10 years (2025-2034). The phase-in would work on a weighted-average basis: 90% of CL formula + 10% of proposal formula for 2025, 80% of CL formula + 20% of proposal formula for 2026, and so on.
