

**DISABILITY DETERMINATIONS AND APPEALS FISCAL YEAR 2022**  
 Title II and Concurrent Title II and Title XVI Decisions for Disability  
 Claims for Workers, Widows, and Disabled Adult Children and Title  
 XVI Decisions for Adults and Children

\*Includes Title II, Title XVI, and concurrent initial disability determinations and appeals decisions issued in FY 2022, regardless of the year in which the initial claim was filed, and regardless of whether the claimant ever received benefits (in a small number of cases with a favorable disability decision benefits are subsequently denied because the claimant does not meet other eligibility requirements.) Does not include claims where an eligibility determination was reached without a determination of disability. If a determination or appeals decision was made on Title II and Title XVI claims for the same person, the results are treated as one concurrent decision.

1/ Includes medical determinations on work CDRs initiated in field offices and CDR mailer continuations processed by SSA. Does not include failure-to-cooperate terminations handled solely in field offices. The continuance and termination rates are computed without the 12,311 "no decision" cases.

NOTE: Due to rounding, data may not always total 100%.
